

About Virgio (Ameyam Enterprise Private Limited):

Fashion is not just about size and fit. At Virgio, we believe it is also about **Express and Evolve**. We are a young label taking a tech led, design forward manifestation of snatched trends for Gen Z wave makers. Virgio is everything now, everything new, and others' tomorrow.

We believe fashion is for all. That's why fashion must be inclusive and affordable. We are not just a passive label that dictates what's in and what's out. We are a living, breathing community. All-inclusive, gender neutral, co-creating the voice for the next generation of expressible fashion.

At the heart of the label is the promise to be responsible. The V in Virgio stands for values - transparency, traceability, circularity. To be a brand that cares about the people and the planet. And create tangible, positive impact at every step of its journey.

Virgio **app** stands for the dawn of a new brand of Social commerce. A platform that defines and disrupts the way fashion is discovered, unveiled, experienced, favorited and **owned**. We are the new fashion version where you fit in and you stand out.

Finally, Our promise is **you** will unbox a new **“YOU”**
